The Honorable Lisa Blunt Rochester
United States Congress
1123 Longworth House Office Building
Washington, DC 20515

Dear Representative Blunt Rochester,

I am writing to request your support and co-sponsorship of H.R.2319, the Consumer Financial Choice and Capital Markets Protection Act.

This bipartisan legislation will help protect state and local governments from the consequences of a Securities and Exchange Commission (SEC) rule, effective in October 2016. The SEC rule prohibits public and private sector institutions that invest short term cash from investing in prime and tax-exempt money market funds that have a stable net asset value (NAV). This rule has limited the investment options of state and local governments, and wiped out billions of dollars of low-cost liquidity nationally used to finance public infrastructure, affordable housing, economic development and other important priorities.

H.R.2319 would fix the unintended consequences of the SEC's floating NAV rule while leaving in place those reforms that were designed to improve financial stability and protect investors. It would restore the ability of state and local governments to use non-government money market funds to strengthen our neighborhoods, spur economic development and create jobs. It was reported favorably from the House Financial Services Committee in January. I ask that you support and co-sponsor this legislation and push for its enactment as soon as possible. As always, I thank you for reviewing this issue.

Yours in service,

A handwritten signature in blue ink, appearing to read 'Matt', is positioned above the printed name.

Matthew Meyer
